

WINNING SECRET IS REVEALED

New

Put a stop to all of the guesswork...the **EDGE** you need is in one package!

EDGE VALVE

The all new EDGE 1300 Series Package is more than just a group of shocks. Each shock in this package has been specially designed to provide specific rebound and compression dampening at both low and high speed shaft velocities to maximize handling for specific track conditions on dirt late model racecars.

Let the EDGE Package take the guesswork out of your shock set-up, and give you everything you need to dominate any track condition.

Complete Late Model 1300 Series 4-Link / Watts / Z-Link Package
